

Press Release: Saitek launches the high performance M100V 7 Button Laser mouse for maximum control and comfort

Bristol — 20 August 2007, Saitek (www.saitek.com) today announced the launch of the M100V 7 Button Laser mouse – a high performance mouse for maximum control and office efficiency.

The M100V is designed with superior ergonomics for great comfort even over prolonged use. The mouse has soft touch panels on the sides to increase grip and a unique asymmetrical shape to fit the hand perfectly. Laser technology gives smooth, precise tracking on almost any surface and the M100V's high 1600dpi resolution guarantees high speed and increased productivity.

The M100V features an impressive array of controls with 7 buttons – all customisable using Saitek's Office Software application. The additional side buttons can be used to control media players, navigate internet pages or initiate complex macros for performing complicated tasks. The mouse even features a custom button which, when pressed once, acts as a double left mouse button click to open files.

The mouse and Saitek Office Software are installed quickly and easily with intuitive software interfaces to make programming controls straightforward and simple.

Commenting on the launch of the M100V Laser Mouse, Maggie Heeley, Saitek Category Manager said: "With many PC users today working on complicated and control-intensive applications, they need a mouse which can increase their productivity, even when performing complex tasks. Our new M100V Laser Mouse offers high-speed and great ergonomics to increase control, with additional programmable buttons to help users simplify complex commands - all in one stylishly designed mouse."

Compatible with all versions of Windows XP and Vista, the M100V Laser Mouse is the ideal addition to the discerning PC user's setup.

About Saitek:

Saitek designs and manufactures consumer electronics products which work together to improve the user's multimedia, gaming and communications experiences. Constant innovation, superior technology and a high degree of functionality make Saitek products the choice of computer users around the world.
